

N2 Cawthorne Park & West Barnsley Rolling Wooded Farmland LCS calls this Cawthorne Park

This area forms gently rolling wooded farmland to the south-west of the River Dearne Valley and extends beyond the Kirklees District. It has a strongly wooded character (deciduous and conifer) with medium scale fields supporting mixed farming. The combination of these elements and patterns gives rise to a visually balanced and 'blocky' character which contrasts with other upland fringe farmland areas. A dispersed pattern of farms and granges is the predominant settlement pattern along with occasional historic villages.
